

Automated Data Migration Guide

from Market Leader (InTouch) and Zap

Important Reminders

> This guide is meant to help you through the process of migrating the core contact related data from your current Market Leader (InTouch) account or Zap account into your new MoxiEngage account.

The data migration process will not only migrate all of your contacts from your Market Leader (InTouch) account or Zap account into MoxiEngage, but since MoxiEngage also syncs with your chosen email account, ALL of your Market Leader (InTouch) or Zap contacts will also be added to your email platform contact list.

> The data migration process can only be executed once and cannot be undone.

Before you begin...

> If this is your first time using MoxiEngage we strongly recommend going through the **First time - MoxiEngage Guide**.

> We also highly recommend that you go through the **MoxiEngage Data Migration FAQs** document before starting your automated data migration for MoxiEngage.

Before you begin...

Log into your current CRM

> Clean up your contacts in your current CRM*:

*Remove/delete any contacts that you do not want to migrate to MoxiEngage

*Correct/clean-up any erroneous/extraneous data

*Make sure your contacts are in the correct contact groups to ensure your contacts remain organized.

*IMPORTANT:

Market Leader (InTouch) data is extracted based on a specific schedule. **Please review the Market Leader Data Extract Schedule; you must complete any data clean-up prior to the Business Builder Data Extract Start Date you are choosing to use - and then run the data migration on or after the Actual Availability Date.**

Zap data is only extracted once per day, **you must complete any data clean-up at least one day prior to performing your data migration.**

Before you begin...

> If migrating from Market Leader: Once you are done cleaning/organizing your contacts, take <u>note of the number of</u> <u>contacts</u> you have in your current CRM.

Steps to follow:

- Navigate to Contacts/All Contacts
- Make sure to clear any filters
- Click on the check box in the column title row
- Capture the number from the "# Selected" message displayed

If you confirm to opt out of migrating your data from your CRM you will not be given this option again. If you just want to postpone the data migration until a later date, click "CANCEL" and then select "SKIP FOR NOW" on the prior screen.

If you choose to OPT OUT, you can close this guide now.

If you clicked "cancel" and would like to start automated data migration, continue to the next page.

If you want to "SKIP FOR NOW"

> If you don't want to migrate your data right now, but you would like to at some future date (i.e., when you are ready to begin using MoxiEngage as your CRM) simply click "SKIP FOR NOW":

If you choose to SKIP FOR NOW, you can close this guide now and revisit when you are ready to perform your data migration.

Migration in Progress Modal

In Product Progress Banner

It is recommended that agents don't add /update any contacts while data migration is in progress as we can't ensure the integrity of the data that comes through if the data is being updated while migration activity is in progress.

Remember that any data added to your current CRM from this point on will not be migrated to MoxiEngage.

When the data migration is complete, we will notify you by email and within MoxiEngage.

Once all your data relevant to MoxiEngage has been successfully migrated from your previous CRM to MoxiEngage, you should receive an email like this.

Remember that the migration is a one-time action, and anything added into your old CRM will NOT be migrated into MoxiEngage going forward.

After you are done with Automated Data Migration:

> After the migration completes, verify the contacts from your current CRM are accounted for in MoxiEngage, along with the contacts from your email client.
<u>*Note</u>: If the number of contacts in Engage decreases after the migration, contact Realogy/Moxi support immediately.

> Return to your email client, review any duplicate contacts that were identified in the migration process, and merge where necessary.

Support:

Moxi can provide you with support in the following three ways:

1. Start a Live Chat: Available via the Help icon located at the bottom of every Moxi product page. After you've opened the chat window, click the "Get in touch" button and then "Live chat" to speak to a live representative.

2. Submit a Request Online: Accessible via the Moxi Support page. Fill out a quick form with your question and the Moxi customer service team will answer via email.

https://support.moxiworks.com/hc/en-us/requests/new

3. Schedule a call with Moxi Support: Accessible via the Moxi Support page. Schedule a call with the Moxi customer support team, ensuring the call fits into your busy schedule.
